

Open the Door to a *New Career!*

Become a Community Health Center
Medical Assistant

Community health centers are searching for highly motivated, customer-focused, detail-oriented team players who want to make a difference in the health and well-being of communities in need.

MACHC's Virtual Medical Assistant Training Program is the Key

- **Prepares students** to take a nationally recognized certification exam.
- **Covers over 30 online training modules** including Patient Centered Medical Home concepts, social determinants of health screening, chronic disease management, and more.
- **Takes about 10 months to complete** for students who devote an average of 10 hours of online training per week.

Unlock the Program's Benefits

- **Allows flexibility to train** while earning money to become a nationally certified medical assistant. *Full-time employees can earn benefits such as paid time off as well as health care and dental insurance.*
- **Requires no financial outlay** or prior health care experience.
- **Covers a broad skillset** to support highly skilled and valued team members.

Interested in a *New Career?*

For current health center employees

Contact your health center human resources team to express interest **before October 31.**
